Final "Ring" Meeting.

The final "fing" meeting was changed to the Fraternal Brotherhood hall from the courthouse, where two meetings were to have been held in the upstairs courtrooms. A man with a megaphone stood on the courthouse stape and shoured: "Kelly meeting at Overland and Oregon streets." A bend also paraded the streets to advertise this meeting. There was a good crowd at the "ring" meeting to hear mayor C. E. Kelly, L. A. Dale, Richard F. Burges, Claude B. Hudspeth and other speakers address the closing meeting. Because of the change in the meeting place, the "ring" meeting was not as well attended as previous meetings of the organization, but the speakers were cheored, especially when they camaged in personal remarks about the opposition.

Red Fire and Brass Bands.

Red fire, bands and street parades marked the close of what old timers here declare to have been the hottest political campaign waged in years in El Paso. Just before the big rally at the Fraturnal Brotherhood hall, the band metched down Oregon street, which had been lined on both sides with red fire. Until late at night bands of one organization or the other were playing and the crowds stayed on the streets until a late hour.

Final instructions to workers and lith hour plans were discussed at the "ring" and anti-ring headquarters, on San Antonio street. Both organizations had their principal candidates on the stump, but, as secon as the public meetings were over, the candidates and many of their friends thronged to the smoky headquarters. It was after midnight before the last of the workers quit the headquarters. Many auto parades were also held during the night and the honk of the auto horns could be heard early election mornings.

EDISON'S MASTERPIECE

In 1878 Mr. Edison invented and patented the first Disc phonograph. This information may come as a surprise to many, for not until now has the great master permitted a disc phonograph to be offered to the public in his name. The new Edison phonograph, therefore, represents the culmination of thirty-five years of endeavor to perfectly reproduce sound and to climinate the objectionable features of other machines.

SOME POINTS OF SUPERIORITY Not found in any other machine

Not long ago a certain musician of note, after examining and listening to the new Edison phonograph, exclaimed: "You do not know what you have. You call it the greatest phonograph in the world. Yes, it is that; but it is more; it is the greatest musical instrument in the world. It means more to music than anything that has ever happened before." Here are some of the advantages that caused the musician to make that remark: advantages that caused the musician to make that remark:

Edison Diamond Point Reproducers

Supplant the steel or fiber needles of other make machines. The reproducer point, being a genuine diamond, highly polished to a perfect surface, neither wears the record nor is worn itself. The playing of an Edison record requires no changing of needles, and the record itself remains unimpaired, however often it is played. All scratchy noises, so common to talking machines, are climinated.

Edison Indestructible Records

Are made of a material new in chemistry and of so great hardness as to permit the reproduction of the myriad of faint overtones which alone give quality to music. A ten-inch Edison Record will play five minutes, which is longer than most twelve-inch records of other makes.

It matters not how often you use the new Edison records, the sound waves engraved thereon can never be effaced nor distorted.

COMEDY HAS GOOD CHARACTER ACTING

Good old rural comedy with the village constable who polishes his star, the village gossip and the hard shelled churchman who does not believe in cooking "hot victuals" on Sunday, are all in the Lyric Players' production of "Our New Minister" at the Crawford this week,

It is not slap stick comedy that the stock company is playing, for no bill with Bert Gamen playing, for no bill with Bert Gamen playing, for no bill be slap stick. With one exception the cast is well chosen and they get a lot of fun and some good acting out of the little town comedy. It is faid in "Hard-Scrabble" and has all of the characters and characteristics of a little community where everyone knows everyone's business and the quality of mercy is strained.

For good character acting the Lyric folk are to be recommended. LeRoy Lewis has been doing some good character work in the parts assigned him and he plays the part of the village doubter without a frace of "rough stuff" Guy Patrick applies his moving picture training to the part of the village detective and does some really ciever pantomining, Mass Minute Lunise Fertymeson, as the town lattler, is in her element, for she is the best character actress in the company.

Washington D. C. Feb. 16.—President Wilson's fight for his ship bill was launched in the house teday with a special rule limiting debate to six hours. Democratic lenders were sure that, by holding their large majority firm, they would have a new measure, bearing the approval of the administration and probably sitractive to some Republicans, ready for the senate before the end of the day's sension.
